INTRODUCTION

Mega Pak Uganda Limited is a fully registered and reputable Ugandan engineering and construction company that leverages a powerful blend of talent, technical skills, industry experience, and professional integrity to provide a comprehensive range of high-quality services.

Our core mission is to deliver value-driven engineering and construction solutions that meet the evolving demands of our clients across both the public and private sectors.

Since our establishment, we have cultivated a strong organizational foundation supported by a well-trained, experienced, and multidisciplinary team. Our commitment to operational excellence and client satisfaction has positioned us as a trusted partner in Uganda's infrastructure development landscape.

ABOUT US

Project Delivery & Commitment to Quality

At **Mega Pak Uganda Limited**, we are guided by principles of transparency, accountability, and excellence in service delivery. We have successfully completed numerous public and private sector projects across Uganda, with a focus on quality control, adherence to timelines, and cost-effective solutions. We pride ourselves on delivering projects that meet international construction and engineering standards, backed by rigorous quality assurance and safety protocols.

INTEGRITY:

We act with honesty, fairness, and accountability in everything we do.

CORE VALUES

EXCELLENCE:

We pursue the highest quality standards in service and product delivery.

INNOVATION:

We embrace creativity and modern technology in engineering solutions.

CLIENT SATISFACTION:

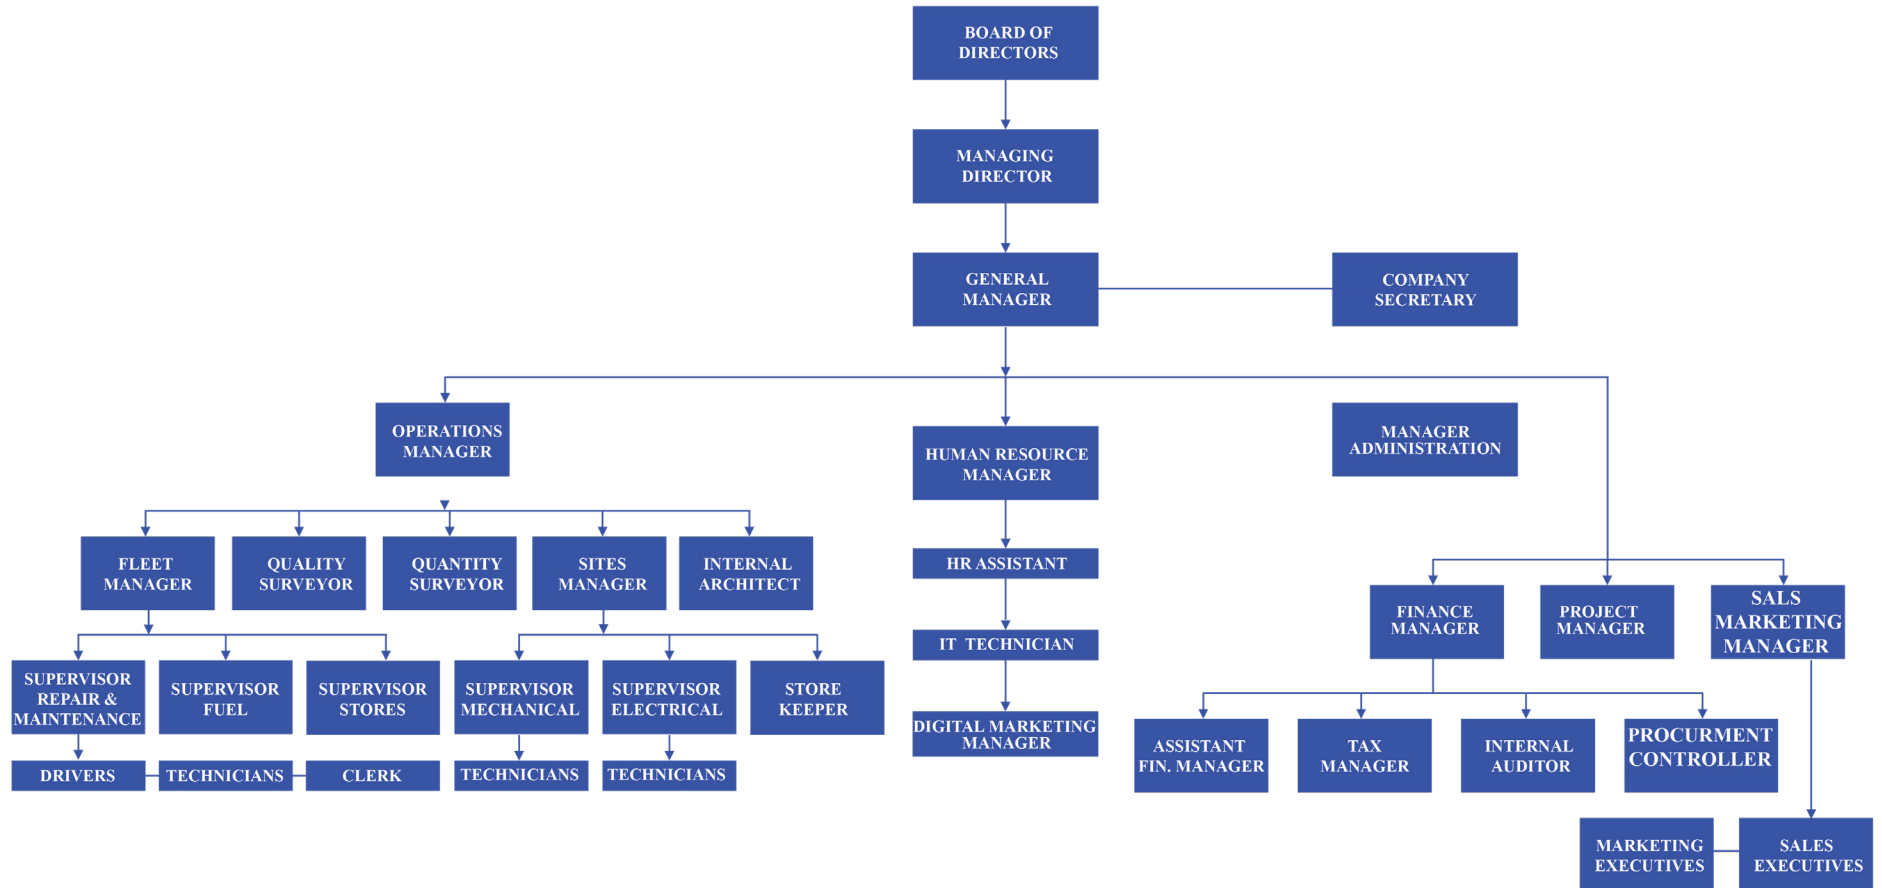

We are committed to understanding and exceeding client expectations.

ORGANIZATIONAL CHART

OUR SERVICES

Mega Pak Uganda operates across multiple sectors with a focus on delivering end-to-end engineering and construction services. Our expertise spans the following areas:

1. Building and Civil Engineering Works

We undertake a wide array of civil construction projects, including residential, commercial, and institutional buildings.

Our services encompass:

- Structural engineering
- Concrete works
- Building renovations and expansions
- Foundations, retaining walls, and drainage systems

2. Road Construction and Maintenance

Our road engineering division specializes in the construction, rehabilitation, and maintenance of urban and rural roads. We deliver durable and efficient road infrastructure solutions, including:

- Earthworks and grading
- Bitumen and tarmac roads
- Gravel roads and paving
- Drainage systems and culvert installations

3. **Electro-Mechanical Works**

Mega Pak Uganda offers design, installation, and maintenance of electro-mechanical systems including:

- Electrical installations for buildings and industrial setups
- Water pumping systems
- Solar and alternative energy systems
- Mechanical fabrication and system integration

4. Carpentry, Joinery, Steel Fabrication, and Aluminum Works

We provide bespoke fabrication and finishing services, combining precision craftsmanship with high-quality materials:

- Custom furniture and fittings
- Wooden and metallic doors and windows
- Partitioning and ceilings
- Structural steel and aluminum fabrication

5. Production and Supply of Building Materials

We manufacture and supply a range of construction materials to ensure quality and timely project execution:

- Concrete products: paving blocks, road kerbs, culverts, drainage slabs, and manhole covers
- Clay products and bricks
- Timber products and treated wood
- Steel and aluminum sections
- Sand, aggregates, stone dust, and cement

6. Our Design & Consultancy Services Include:

- Architectural Design:
 - o Residential, commercial, institutional, and industrial buildings
 - o Interior design and space planning
 - o Façade and landscape design
- Engineering Design:
 - o Structural analysis and design (steel, concrete, timber)
 - o Civil works and infrastructure layout
 - o Water systems design: generation, distribution, and drainage

7. Construction Supervision & Technical Consultancy:

- Project feasibility studies and cost estimation
- Detailed Bills of Quantities (BOQs)
- Site supervision, quality assurance, and technical audits
- Environmental and social impact assessments (ESIAs)
- Regulatory compliance and permits advisory

Strategic Expansion & Material Supply Division

Recognizing the increasing demand for reliable construction materials in the region, Mega Pak Uganda has expanded its operations to include a dedicated materials supply division. This arm of the company focuses on the bulk supply of:

- Masonry units (blocks, interlocking bricks)
- Precast concrete components (pavers, kerbs, culverts)
- Road and drainage elements
- Electro-mechanical accessories and fittings
- Timber, steel bars, beams, and aluminum profiles
- Cement , Hardcore, Aggregates & Sand.

Our supply chain is optimized for efficiency, allowing us to meet the logistical and material requirements of large- and small-scale projects across Uganda and neighboring regions.

Technical Competence & Human Resource

Our team comprises a diverse mix of seasoned professionals and dynamic young talent. With specialists

in civil engineering, architecture, project management, water systems, mechanical and electrical engineering, and construction management, we are able to execute projects with efficiency, innovation, and attention to detail.

Key areas of expertise include:

- Civil & Structural Engineering
- Architectural Design & Supervision
- Road & Transportation Engineering
- Electro-Mechanical Engineering
- Carpentry, Joinery & Interior Fit-outs
- Steel & Aluminum Fabrication
- Design & Consultancy Service
- Construction Supervision and Technical Consultancy

We invest in continuous training, technology adoption, and professional development to ensure our teams stay at the forefront of industry standards.
